PROFILE INFO

As a computer science major at the University of Westminster, UK, I am a quick learner and creative thinker with a passion for software development. With over five years of experience as a graphic design freelancer, I have honed my skills in creative problem-solving, attention to detail, and communication. During my recent six-month internship at Infor Nexus as a software engineering intern, I further developed my technical skills in Java and Spring Boot, as well as Angular and Ionic for web and mobile application development. I am eager to continue growing as a developer and contributing my skills to a dynamic team of professionals.

EDUCATION HISTORY

BSc Honors in Computer Science
2020 - Present
Informatics Institute of Technology in Affiliation with University of Westminster, London

GCE Advanced Level Physical Science Stream
2018
Richmond College Galle

GCE Ordinary Level
2015
Richmond College Galle

Complete Python Developer in 2022: Zero to Mastery
2022 - 2023
UDEMY

SKILLS & EXPERTISE

- UI/UX Design ▬▬▬▭
- Frontend Development ▬▬▬▭
- Backend Development ▬▬▭▭
- Illustration ▬▬▬▭
- Graphic Design ▬▬▬▭

WORK EXPERIENCE

Graphic Designer
Fiverr Freelancing | 2017 - 2022

- Develop graphics and layouts for product illustrations, company logos, and Internet websites.

  Bē www.behance.net/acekavi

Software Engineering Intern
Infor Nexus | 2022 - 2023

- Worked with Java and Spring Boot, which are used extensively in the core of the organization.
- Worked on the Quality Assurance application, which involved developing web and mobile applications using Angular and Ionic.
- Developed a strong understanding of REST APIs and non-relational databases while working on the core application.
- Contributed to the development of the audit page and PDF export feature for the mobile application in the Quality Assurance application.
- Improved my communication and collaboration skills by working closely with local and international team members.
